DAVID PÁEZ RAMÍREZ
Electronic Engineer

Street 175 #17B-80. Bogotá, Colombia
(+57) 3133684224 | david.paez.ramirez98@gmail.com

EDUCATION

UNIVERSITY

Universidad Santo Tomas **Bogotá, Colombia**

- **Bachelor's in Electronic Engineering** **April 2022**
  GPA 4.0/5.0

PROFESSIONAL EXPERIENCE

NUA TECHNOLOGY – DEVELOPER **Bogotá, Colombia**

DevOps Advanced **January 2024 – Present**
(Backend Developer / Cloud Administrator / Technical Leader)

Project - [Savia]
Project - [Metro / Telemetry]
Project - [Metro / Digital]

- AWS Landing Zones - (Multi-Account Solutions, Control Tower, IAM Identity Center, Organizations, SCPs, Organizational Units, Account Factory, Config)
- Infrastructures as Code (IaC) - Designed and deployed scalable, modular infrastructure across multi-account environments. (CDK & Terraform).
- CI/CD Pipelines – GitOps (Code Build, Code Pipeline, Code Star, (GitHub, Gitlab, Bitbucket))
- Testing (Unit Testing, E2E Testing, Infrastructure Testing CDK)
- Monitoring (CloudTrail, CloudWatch, X-Ray, VPC Flow Logs)
- Access Management (IAM, SSO, Identity Center, Organizations)
- Docker & Container Management (ECS, ECR, EKS, OKD)
- Security (Security Hub, Health, Config, X-Ray, CloudTrail, Inspector, KMS, Secrets Manager, Shield, WAF, Guard Duty, Detective...)
- Optimized Git workflows to reduce deployment and monitoring costs

DevOps Team Member **January 2022- December 2023**
(Backend Developer / Technical Leader)

Project - [Metro / Centro Integrado de Seguridad y Emergencias (CISE)]

- Infrastructure as Code (IaC) - Designed and deployed scalable, modular infrastructure across multi-account environments. (CDK & Terraform)
- CI/CD Pipelines – GitOps (Code Build, Code Pipeline, Code Star, (GitHub, Gitlab, Bitbucket))
- Testing (Unit Testing, E2E Testing, Infrastructure Testing CDK)
- Monitoring (CloudTrail, CloudWatch, X-Ray, VPC Flow Logs)
- Access Management (IAM, SSO, Identity Center, Organizations)
- Docker & Container Management (ECS, ECR, EKS, OKD)
- Backend Developer – Serverless Compute – AWS (Amplify, Lambda, DynamoDB, S3, Route 53...).

Project – [Xinerlink]

- Backend Developer – Serverless Compute – AWS (Amplify, Lambda, DynamoDB).
- Optimize Git workflows to reduce deployments and monitor costs.
- Docker & Container Management (ECS, ECR, EKS, OKD)
- Testing (Unit Testing, E2E Testing)
- Scrum Methodologies.

COBISCORP – INTERN **Bogotá, Colombia**

Machine Learning Developer **January 2021- July 2021**

- Support and Maintenance – Chatbot AI with RASA open Source.
- Development in Computer Vision – Extract data with AWS Rekognition.
- Development Rest API with Django - List facial analysis requests.

PUBLICATIONS

Journals:

- MPSO-based PID control design for power factor correction in an AC-DC boost converter – 5 Jun 2023 – Automatika - Document

Conferences:

- Distributed Particle Swarm Optimization for Multi-Robot System in Search and Rescue Operations – 30 oct 2021 – ELSEVIER - Document
- Bio-inspired PSO technique applied to PID sintonization for power factor correction in a Boost Converter – 13 dec 2021 – IEEE Xplore - Document
- Design and Simulation of a Voltage Control Based on Neural Networks – 13 dec 2021 – IEEE Xplore - Document

ADDITIONAL INFORMATION

- **Languages: Spanish** (Native). **English** (Advanced C1 Toefl Report).
- **Programming Skills:** C, C++, C#, Python, JavaScript, MATLAB, Ladder.
- **Other Engineering Skills:** HDL, Altium Designer, OrCAD, Eagle, TIA PORTAL Siemens.
- **Computer Skills:** MS Office Suite (Excel, PowerPoint, Word), LaTeX, Visual Paradigm, Drawio, Figma.
- **Other courses: A**WS Certified DevOps Engineer – Professional, AWS Certified SysOps [CloudOps] Administrator – Associate, AWS Certified Developer – Associate, AWS Certified Cloud Practitioner, AWS Partner: Cloud Economics Accreditation, AWS Computer Vision: Getting Started with GluonCV, AWS Technical Accreditation, AWS Economics Accreditation.
- **Work Networks:** ResearchGate, GitHub, LinkedIn.
