RESEARCH INTERESTS

My research aims to enable specification-driven autonomy for multi-robot systems that interact with people. I automate synthesis and decision-making by integrating temporal logic–based formal methods, optimization, machine learning, and physically aware control. I explicitly account for uncertainty, scalability, and partial satisfaction when goals conflict or constraints are violated. I design algorithms for reliable human–robot interaction and multi-robot coordination that connect high-level specifications to low-level controllers, enabling the planning, explanation, and safe execution of complex missions. I validate these methods on real platforms, including quadrotors, ground robots, and humanoids.

ACADEMIC APPOINTMENTS

Assistant Professor, Department of Mechanical and Nuclear Engineering — *Richmond, VA, USA*
Virginia Commonwealth University — (*Aug 2026-Present*)

EDUCATION

PhD, Lehigh University (Member: AIRLab) — *Bethlehem, PA, USA*
Ph.D. in Mechanical Engineering (GPA: 3.88/4.0) — *May'2025*
Thesis: Formal Methods for Multi-Robot Systems: Scalable and Robust Planning with Temporal Logic and Partial Satisfaction,
Award: 2025 Rossin College of Engineering and Applied Science Elizabeth V. Stout Dissertation Award,
Award: 2025 Outstanding Dissertation-Mechanical Engineering & Mechanics,
Advisor: *Dr. Cristian-Ioan Vasile*

Master, Universidad Nacional de Colombia (Member: DESYNC Lab) — Bogota, Colombia
Magister in Industrial Automation (GPA: 4.7/5.0) — *2023*
Thesis: Bioinspired Algorithm of Robot Network for Assistance in Search and Rescue Operations
Advisor: *Dr. Eduardo Mojica-Nava*

Bachelor, Universidad Nacional de Colombia (Member: DESYNC Lab) — Bogota, Colombia
Bachelor's in Electrical Engineering (GPA: 4.1/5.0, rank:3/33) — *2018*

RESEARCH EXPERIENCE

Postdoctoral Researcher, University of Delaware — *Newark, DE*
Host: *Dr. Panagiotis Artemiadis* — (*June 2025-Aug-2026*)
◦ Planning and coordination algorithms for physical human-humanoid interactions.

Research Intern, Mitsubishi Electric Research Laboratories (MERL) — *Cambridge, MA*
Host: *Dr. Stefano Di Cairano* — (*May 2024-Aug 2024*)
◦ Development and implementation of optimization-based algorithms for real-world applications of ground robot coordination, scheduling, and motion planning in uncertain surrounding environments.

Research Assistant, Explainable Robotics Lab (ERL), Lehigh University — *Bethlehem, PA*
Advisor: *Dr. Cristian-Ioan Vasile* — (*Aug 2020-May 2025*)
◦ Planning for multi-robot systems (modular, swarms, heterogeneous, and self-driving cars) using temporal logic formalisms to capture mission specifications. By modeling Mixed-Integer Linear Programming formulations that capture robot dynamics and specifications.

Volunteer Researcher, Swarms Lab, Lehigh University — *Bethlehem, PA*
Advisor: *Dr. David Saldaña* — (*Aug 2020-May 2025*)
◦ Design of the Catenary-robot, a cable propelled by two quadrotors in its ends. Control design for the

non-prehensile manipulation of objects without human intervention. Design of an adaptive controller to overcome dynamic uncertainties.

Volunteer Researcher, Robotics & Intelligent Systems Lab *Colombia*
Advisor: *Dr. Juan M. Calderon* (*2016-2020*)
∘ Coordination algorithms for swarms in search and rescue scenarios. Victim detection and classification using neural networks. Navigation learning in non-convex scenarios using Q-learning. Algorithms for swarms for the navigation in cluttered environments.

Research Assistant, DESYNC LAB, Universidad Nacional de Colombia *Colombia*
Advisor: *Dr. Eduardo Mojica-Nava* (*2016-2020*)
∘ Bioinspired algorithms for search and rescue scenarios. Cooperative transportation of objects using quadrotors. Exploration and navigation of environments using Voronoi cells and potential functions.

AWARDS AND ACCOMPLISHMENTS

- 2025 Rossin College of Engineering and Applied Science **Elizabeth V. Stout Dissertation Award**, Lehigh University
- **2025 Outstanding Dissertation-Mechanical Engineering & Mechanics**, Lehigh University
- ICRA 2023-**RAS Travel Grant**
- 2023 **Rossin Professional Development Program Fellowship**
- Rossin College of Engineering and Applied Science **RCEAS Fellowship**-Spring 2023
- **IEEE CSS Student Travel** Support Program of CDC 2022
- **Student Travel Grant WAFR**, The 15th International Workshop on the Algorithmic Foundations of Robotics (WAFR), 2022
- **Inclusion Fellow RSS**, Robotics Science and Systems Conference (RSS), 2022
- Graduate Student Senate **(GSS) travel grant** 2022
- **Fellowship**, Department of Mechanical Engineering and Mechanics in the Rossin Doctoral Fellows program for the academic year 2020
- **Academic merit award.** Teacher Assistant, exemption from payment of tuition fees. (Universidad Nacional de Colombia)
- **Automatic admission to graduate program**, best 10% graduated from bachelor's in Electrical Engineering (Universidad Nacional de Colombia)
- **Academic merit award.** Exemption from payment of tuition fees 2012 (Universidad Nacional de Colombia)

OUTREACH AND BROADENING PARTICIPATION IN STEM

- Lehigh University STEM council meeting to discuss challenges and improvement opportunities - 2024.
- Community outreach activities Lehigh Stem Squad: Rutgers Leap Academy, Drone competition. October 9, 2024
- PreLusion: Lehigh Women Engineers, robotics showcase for first-year students, Summer-2023.
- Robotics demonstration in the Choices Program, a project for middle school girls to get interested in STEM. Lehigh University, Summer-2023.
- Diversity, Equity, and Inclusion workshop (MEM-DEI), Seminar for the Mechanical Engineering and Mechanics Department, Lehigh University, Spring-2023 and Fall-2024.
- Workshop on Diversity, Equity, and Inclusion, AIRLab, Lehigh University, 2022.
- Proyecto SED-UN, teaching physics to 20 high-school students at "Colegio Republica Dominicana" to prepare for admission exam to the university. 2014.

TEACHING EXPERIENCE

- Teacher Development Program, Lehigh University, Level 1 and Level 2, 2023-2024.

Assistant Professor, Virginia Commonwealth University
◦ EGMN 210 Computational Methods, Spring 2027

Guest Lecture
◦ Digital Control (one lecture on observability to 15 undergraduate students), *University of Delaware*, Fall 2025.
◦ Formal Methods in Robotics (4 lectures on MILPs and temporal logic to 10 graduate students), *Lehigh University*, Fall 2024.

Teaching Assistant *Lehigh University*
◦ Manufacturing (Laboratory Lecturer for 20 students) Spring 24
◦ Numerical Methods in Mechanical Engineering (Grader and office hours) Fall 22, Spring 23, Fall 23

Teaching Assistant (Lecturer) *Universidad Nacional de Colombia*
◦ Electric Machines. (Lecturer for more than 40 students) Spring 19, Fall 19

Undergraduate Teaching Assistant *Universidad Nacional de Colombia*
◦ Servo-Visual Control and Robotics (Tutoring for 20 students about OpenCV). Spring 18

Undergraduate Teaching Assistant *Universidad Nacional de Colombia*
◦ Electromagnetic Conversion Laboratory. (Lecturer for 20 students) Spring 17

Undergraduate Tutoring engineering program *Universidad Nacional de Colombia*
◦ Signals and Systems, Control Theory. (Tutoring for 60 students). Spring 17

ADVISING

Ph.D.
◦ David Paez, Virginia Commonwealth University, Richmond, VA, USA, Aug 2026-present.

Master
◦ Javier Alexis Cárdenas Bohorquez, Universidad Santo Tomas, Colombia, 2024-present (co-advised)
◦ Juan David Molina Rios, Universidad Santo Tomas, Colombia, 2025-present (co-advised)

MENTORING

PhD
- Hensley Crockett, Lehigh University, 2026-present
- Weston Brousseau, University of Delaware, 2026-present
- Shubham S. Kumbhar, University of Delaware, 2025-present
- Kaier Liang, Lehigh University, 2024-2026

Master
- Weston Brousseau, University of Delaware, 2025-2026
- Hengde Dai, Lehigh University, 2024-2025
- Thomas Snipes, Lehigh University, Summer-2024
- Juan David Pabon Hernandez, Universidad Nacional de Colombia, 2020

Undergraduate
- Timothy Wondree, Virginia Commonwealth University, Richmond, VA, 2026-
- Kenneth White, Virginia Commonwealth University, Richmond, VA, 2026-
- Brian Noriega, Universidad Santo Tomas, Colombia, 2021
- Juan P. Romero, Universidad Santo Tomas, Colombia, 2021
- David Paez, Universidad Santo Tomas, Colombia, 2021
- Juan Sebastian Ramirez Rugeles, Universidad Nacional de Colombia, 2019-2020

Technical Mentoring: Mountaintop Summer Experience Program, Mentoring more than 10 undergraduate students on developing a self-driving car platform (2022-2024).
